

# Quack Quack Craft!

## (Blank)

### Lesson Idea:

“Quack Quacks” are little origami paper crafts that are relatively simple to make and can be used for many different lessons and activities.

Not knowing what your result is going to be adds that fun element of surprise to your lesson or activity.

Follow our printed instructions on the next page or watch the demonstration on the video link below.

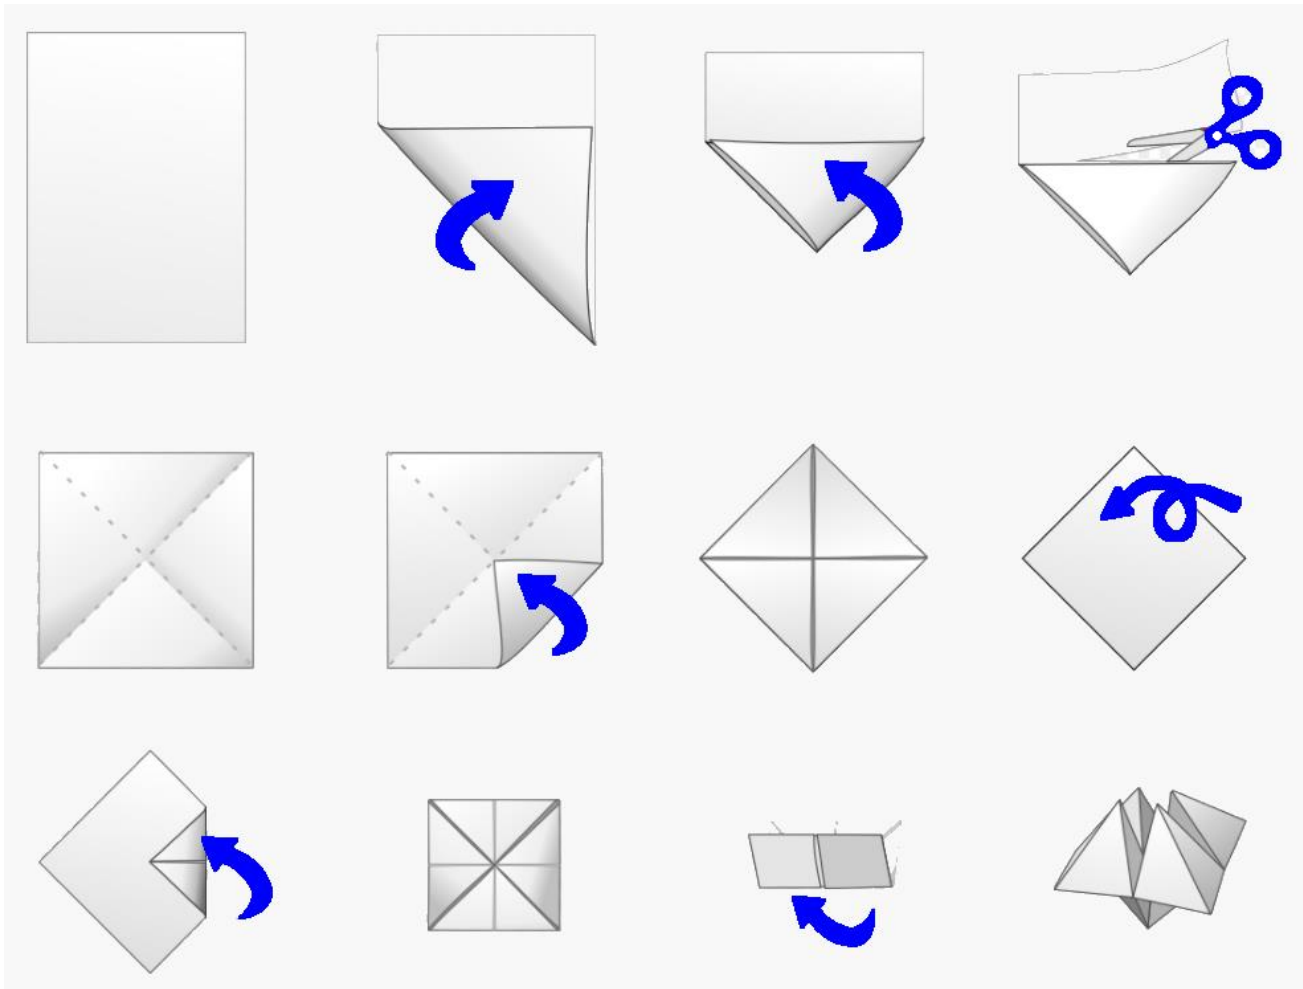

### Items needed per child:

### Craft making instructions:

Link to video demonstration: <https://youtu.be/N3zEezO7QF8>

1. First make sure you are working with a square piece of paper. Cut it if necessary. Little ones may need your help following the folding instructions.
2. Fold on the diagonals so that you have four triangles.
3. Fold each corner towards the middle.
4. Now turn over the square.
5. Again, fold the corners to the middle of the square.
6. Now pull out the corners to make pockets for your fingertips to fit into.

**How to use the “Quack Quack” craft:**

1. Start by choosing one of the four outside options. These could be colours. So, if you choose “blue” you have to open and close your fingers while spelling out “B-L-U-E”.
2. Next you choose one of the inside options, these could be numbers. So, if it's “5” you open and close your fingers five times.
3. Lastly, choose another option on the inside and open it up to reveal the inside which could be a question or a person for you to pray for.
4. Everyone in the family can take turns.
